

## **Provincial Land Use Policies**

- Planning is the backbone of any good municipality. As such, municipalities have a keen interest in the Provincial Land Use Policies that are currently being reviewed by the Province.
- The AMM has been in discussion with the Province over the last few years as they have begun the process of reviewing the policies.
- We were pleased to have them come out to all the district meetings last June to provide an update on how things have been going.
- We were hopeful that progress would be faster, but it appears like they are now set to move forward.
- The AMM is pleased to be working with the department on having regional meetings to allow all municipal officials an opportunity to comment on the policies.
- You are the people who do planning so you should be the ones reviewing the policies.
- We encourage you to attend these sessions and to have your voices heard. I know the department wants your feedback.

- The sessions are tentatively set as follows:
