

Update from FCM

- FCM is an important voice for municipalities and **the** voice for municipalities federally.
- Perhaps nothing better exemplifies the importance of FCM than the recent Federal Budget.
- FCM was advocating for municipalities, letting the Federal Government know the need for municipal infrastructure funding based on a survey of its members.
- FCM played a large role in municipalities getting the federal infrastructure commitments we did in the recent Federal Budget.
- FCM was also instrumental in municipalities getting the GST rebate and the Gas Tax program.
- FCM is a strong advocate for municipalities on the federal stage and I encourage all municipalities to participate in FCM.
- AMM is plugged into FCM as I sit on the board, and we have Manitoba directors on the board as well, but your membership is important.
