## Insurance and Risk Management Solutions for Manitoba Municipalities

The Association of Manitoba Municipalities (AMM) and HED Insurance and Risk Services (HED) work together to provide municipalities in Manitoba with financial security through insurance products and services designed to manage risk.

**Employee Benefits Program**

This program is available for both employees and council members and participation grows annually. The “self-insured” Employee Benefits Program is used by 132 of 196 municipalities outside Winnipeg and offers flexible coverage options at reasonable rates.

**Municipal Insurance Program**

HED would like to thank the AMM and all 196 of the municipalities who have helped us make this program such a success. With full participation from all municipalities outside Winnipeg, the “protected self-insured” structure of the Municipal Insurance Program continues to prove its value. Municipalities enjoy an ideal combination of insurance protection, reduced expenses and a loss prevention building inspection program.
