SAFETY MATTERS!

Manitoba's only "not-for-profit" traffic safety resource committed to providing safer roads for rural Manitobans by working with communities and municipalities to resolve their traffic safety issues.

We provide access to education and resources to assist elected officials and administration in making the right decision to install the proper traffic control and signs on their roads.

Education, authorized signs and proper installation can reduce injuries and fatalities and promote positive changes in driver behaviour.

Inappropriate or missing signs give motorists and pedestrians (especially children) a false sense of security and often lead to tragic consequences and potential liability issues for municipalities. Safety audits are a critical component to public safety as much as well maintained roads.

Please call before you install !
