

2009 WORKSHOPS

Donna Belbin, AMM Events Coordinator

FOCUSING ON RELEVANT EXPERIENCES

Community leadership requires education, innovation, and information. Municipal officials must be sensitive, determined, and visionary in order to lead municipalities into the future.

The AMM Education Program is comprised of workshops that focus on experiences that are directly relevant to the municipal perspective: *leadership*, *communications* and *technical* aspects. The one-day workshops make the most of the municipal officials' invested time as they broaden their knowledge and improve their skills so they can effectively achieve the goals of their community.

ESSENTIAL SKILLS MANAGERS NEED FOR A POSITIVE WORK ENVIRONMENT

Workshop Leader: Genella Macintyre, Partners in Discovery

Friday, February 27, 2009, 9:00 am - 3:30 pm
Canad Inns, Portage la Prairie

Registration Fee: \$75.00 plus GST

Nice to know or need to know? This

workshop will focus on what managers need to know in order to build a positive work environment. Of course, to examine all of these topics in detail will take more than one day. However, this workshop will consider the bottom line of areas that are essential to successful leadership including building essential skills in critical areas.

THE 'ETHICAL' MOMENT & EFFECTIVE SELF MANAGEMENT

Workshop Leader: Cec Hanec, Cec Hanec & Associates Inc.

Friday, April 17, 2009, 9:00 am - 3:30 pm
Keystone Centre, Brandon

Registration Fee: \$100.00 plus GST

This interactive, discussion based session will

focus on the importance of being 'personally ready' from a variety of perspectives, the difficulties faced by organizations, you as a manager and the people you are responsible for when such things as conflict commitment and conflict of interest arise, and actions you can take to play a more proactive role in ensuring organizational integrity and accountability.

PUBLIC ENGAGEMENT & PARTICIPATION

Workshop Leader: TBA

Friday, October 9, 2009, 9:00 am - 3:30 pm
Clarion Inn, Winnipeg

Registration Fee: \$75.00 plus GST

Significant benefits can be realized through engaging your community. Workshop participants will discuss:

- When dialogue is needed
- What kind of dialogue should we be having and with whom

- The role that local government plays
- What the right engagement process is.

Together, these points will provide an efficient framework of ideas that identifies when to move from consultation to dialogue, and then to decide carefully what kind of dialogue to use, who to engage, and what the process should look like. Sorting out these pieces represents a significant step in the process. **L**
