

FREE COST ANALYSIS from PFA

Prairie Fuel Advisors (2008) Ltd., or PFA, has a great opportunity for municipalities that are not yet members of the AMM's Petroleum Products Buying Group (PPBG). PFA, is offering a free cost analysis to a municipality. Simply forward PFA your municipality's fuel invoices for the past year and PFA program managers will compare the prices paid to those your municipality would have paid had it purchased through the PPBG. A detailed report will show you exactly where you can achieve fuel savings.

PPBG members enjoy the following benefits:

- Lower costs of fuel and lubricants;
 - Retail credit card program with Fas Gas and RaceTrac Gas that allows for a discount in addition on top of local discounts;
 - Control over the price changes of fuel;
 - Elimination of tendering for fuel; and
 - Support for local fuel agents.
- Approved suppliers for the program

include Imperial Oil/ESSO, United Farmers of Alberta (UFA), Petro-Canada, Fas Gas/Race Trac and Milligan Bio-Tech.

CLAMPS from Acklands Grainger

BESSEY Tools of North America, with head offices in Cambridge, Ontario, is one of the largest and most respected clamping manufacturers in the world. Through innovation, engineering, superior design and industry-leading manufacturing standards, BESSEY Tools remains at the forefront of clamping technology with over 1,300 unique clamping tools working in 90 countries worldwide. Whether your municipality is in need of bar clamps, specialty clamps, C-clamps, grip pliers or vices, BESSEY Tools can't be beat for quality and innovation.

Contact your local Acklands Grainger representative or visit www.besseytools.com for more information.

Serving Manitoba FOR 25 YEARS

Manitoba-based Airmaster Sales has been satisfying the signage needs of municipalities for 25 years. Airmaster Sales is the authorized converter for Avery Dennison, the industry leader for reflective sheeting. The company utilizes four of Avery Dennison's reflective films:

1000 Series – This engineer grade reflective sheeting (ASTM Type I) is commonly used in areas where a cost-effective reflective sign is required.

6500 Series – This high intensity prismatic sheeting (ASTM Type III & IV) is most suitable for highway signs requiring high visibility and a high-performance cycle.

7500 Series – The MVP (Maximum Visual Performance) grade prismatic reflective sheeting (ASTM Type VIII) in the 7500 Series is the preferred application for high-speed areas where maximum visibility is the primary concern.

9500 Series – The durable Omni-View (ASTM Type IX) is ideal for premium prismatic sheeting requirements, enhancing short-distance brightness while maintaining long-distance brightness.
