New Public Transit Projects across Manitoba

L to R: Minister of Indigenous and Municipal Relations Eileen Clarke, Minister of Natural Resources Jim Carr and President Chris Goertzen announcing public transit infrastructure funding across Manitoba.

On March 31, the AMM joined the Governments of Canada and Manitoba to announce 43 new public transit infrastructure projects.

"Public transit is important to Manitoba municipalities throughout the province," said President Goertzen. "Today's announcement of funding for public transit and handi-van services will help municipalities ensure residents, including those with mobility issues, have access to high quality transportation options." Wait Time Reduction Task Force

The Manitoba government has established a Manitoba Wait Time Reduction Task Force to examine and address waits for emergency care and priority procedures such as surgeries and diagnostic tests. Public consultations will be held in communities across the province. Meeting dates and locations are listed at www.gov.mb.ca/health/wtrtf.html. Manitobans are encouraged to participate in discussions and offer input.

Individuals who want to attend but may have accessibility requirements can phone 1-855-259-9670 (toll-free) or email WTRTF@gov.mb.ca to share their needs with the meeting organizers.

A public survey will open April 3 at www.gov.mb.ca/health/wtrtf.html.

Are You Flood Ready?

The Government of Canada's National Disaster Mitigation Program (NDMP) was established in April 2015 to address rising flood risks and costs. The program funds risk assessments, flood mapping and mitigation planning activities, as well as non-structural and small-scale structural disaster mitigation projects.

Eligibility

Provincial and territorial governments are the eligible recipients for funding under the NDMP. They may collaborate with, and redistribute funding to, municipal or other local governments, public-sector bodies, private-sector bodies, band councils, international non-government organizations or any combination of these entities.
