RMA Fuel is one of the leading fuel and lubricant suppliers for municipalities, school divisions, and other public sector entities across Canada. The fuel program provides fuel and lubricants from coast to coast through local supplier networks that have been approved through an open RFP process.

Currently the approved suppliers are Esso and Petro-Canada and bulk fuel, cardlock, retail and lubricants are offered. RMA Fuel was founded on the idea of group buying power and has partnered with government associations to increase volumes, thereby decreasing costs for members.
