Dear Mayor Johannson,

I have had the pleasure of working with you since 2016. Together we have worked to produce more than 30 hours of television in the greater Selkirk area. Your support of the industry has been instrumental in making the Selkirk region a key player in the "Hollywood North" production environment that Manitoba is home to.

You were instrumental in lobbying the provincial government to make the Manitoba Film and Video Production Tax Credit permanent in Manitoba legislation. Your relationship and credibility in the opinion of Provincial law makers was evident when we worked together to help achieve this goal. I have turned to you many times since to help in our efforts to keep our industry going and growing, and you've been there to help with every call to action.

Larry, you get things done. While you always prioritize the importance of working for the people of the greater Selkirk region, your recognition of the importance of building relationships with other regions and Provincial and Federal governments is crucial. Your tireless work towards reconciliation and mutually beneficial relations with his First Nations partners in the region also speaks volumes about your awareness of what is relevant and important to the future economic success of the region and the wellbeing of its residents.

Mayor Johannson you are truly one of the great people who make Manitoba better every day! I am lucky to work with you in business and even luckier to call you my friend.

Sincerely,
