*"When you get elected you have big ideas of what you're going to do in the future - it doesn't happen quickly. You have to take your time," Councillor Karen MacKinnon, City of Flin Flon.*

## Community Energy Efficiency Program

Efficiency Manitoba is again accepting funding applications for the [Community Energy Efficiency Program](#) from **September 1 to November 30, 2022**. This program offers municipalities the opportunity, support, and resources to

hire an Energy Efficiency Advocate to create and implement community energy efficiency plans with guidance from Efficiency Manitoba's team of experts.

These plans help communities lower their overall energy consumption by enabling participation in Efficiency Manitoba's programs for energy efficiency upgrades. Hired by the municipality, the energy efficiency advocate helps foster a culture of conservation in the community, empowering its citizens to participate in energy-saving initiatives. Community participation in energy efficiency programs will lead to energy and bill savings in the municipality's homes and businesses.

Efficiency Manitoba pays for 80% of the advocate's salary up to a maximum of \$40,000 each year for two years. Frequent and direct access to Efficiency Manitoba's program staff and technical experts is provided, assisting with energy efficiency training.

Check out the [program guide](#) to find out how to submit a funding application.
