Manitoba Government Announces Intake for Quarry Rehabilitation Program

The Manitoba government is now accepting applications for the Quarry Rehabilitation on Private and Municipal Land Program. Our government continues to make targeted investments to support the increased interest in Manitoba as a world-class mining destination. We are pleased to announce the start of intakes for the Quarry Rehabilitation on Private and Municipal Land Program, which supports the rehabilitation of depleted pits and quarries on private and municipal lands. - Economic Development, Investment and Trade Minister Jeff Wharton

Up to \$1.8 million in funding will be available through the 2023-24 program, which includes municipalities.

Applications will be open until **July 20**. Successful grant recipients will be notified by the end of August. Approved projects must be completed by Nov. 30.

Exclusive Webinar for ISED's Centre for Rural Economic Development (CenRED) hosted by CMHC Housing Accelerator Fund (HAF)

The Government of Canada recognizes that rural communities are at the heart of the national economy, are essential to Canada's social fabric, and are vibrant places to live and work for both current residents and newcomers alike. However, the Government also recognizes that for rural communities to fully realize new growth opportunities, it will be critical to drive the supply of housing in order attract new investment, create good jobs, retain skilled workers, and build prosperity over the longer-term.

The housing shortage is not only a challenge for Canada's urban areas, which is why the new Housing Accelerator Fund includes a dedicated Small/Rural/North/ Indigenous Stream that provides incentive funding to local governments to help remove barriers and support the development of affordable, inclusive, equitable, and climate-resilient communities.

AMM PROGRAMS & SERVICES

Cybersecurity Audit Service

Cybersecurity is increasingly important, and the cost/impact of a cybersecurity incident continues to rise. A cybersecurity assessment allows organizations to identify areas where they are weakest, and provides a clear roadmap to addressing the risks and gaps that could be exploited and cause a significant issue.

AMM has negotiated an agreement with [Bloom Software Co.](#) to offer cybersecurity audits to AMM municipal members.

Bloom's assessment model addresses the key areas that are of greatest concern, discusses and defines them in plain language, and provides organizations the ability to make informed decisions about their own priorities to set an implementation plan.
