Municipality Green Initiative Funding

Funding provided by:

The number of opportunities to access funding to implement your planned green initiatives is growing. Many new sources have been announced in recent months—and may provide the opening needed to move your municipality's priority actions forward.

The Government of Manitoba has provided financial support to Eco-West Canada and the International Institute for Sustainable Development (IISD) to help municipalities understand the changing funding landscape.

Thanks to this funding, Eco-West Canada and IISD will be hosting an **informational webinar on December 1st, 2021** through which you can learn more about available funding opportunities.

Examples of projects that could be supported through the available funding include:

- Climate-proofing critical infrastructure

- Retrofitting community buildings to be more energy efficient
- Greening your transportation sector, upgrading your fleet vehicles, or expanding active transportation networks
- Updating your wastewater systems

FIPPA Amendments Information Session

The Information and Privacy Policy Secretariat is inviting you to join us for an information session on the amendments to *The Freedom of Information and Protection of Privacy Act (FIPPA)* that will come into force on **January 1, 2022**.

Who should attend?

This session is intended for those employees of your public body that have a direct role in the processing of requests for access made under FIPPA. Typically, those employees consist of a public body's assigned Access and Privacy Coordinator and/or delegated Access and Privacy Officer.

What will be discussed?

The purpose of this information session is to explain the amendments to FIPPA that will soon be coming into force. Our focus will be on the changes to the law that will have the most impact on public bodies when processing requests for access and when implementing the necessary requirements to protect privacy.

Please Note: This session will not provide comprehensive training for Access and Privacy Coordinators/Officers. The focus will be on the changes to FIPPA only. Our office will be providing opportunities for Access and Privacy Coordinator training in the new calendar year.

Session Dates and How to Register

For your convenience, we are offering the information session on four different dates in hopes that one of them will work for your schedule. All sessions will be held via **GoToWebinar®**.
