

Asset Management: Getting Started and Moving Forward

October 2023

The training has been developed by NAMS Canada in partnership with the Association of Manitoba Municipalities.

This initiative is offered through the Municipal Asset Management Program, which is delivered by the Federation of Canadian Municipalities and funded by the Government of Canada.

Workbook & Resources

MUNICIPALITY OF NEVERLAND

Summary of Current AM State

The municipality in Southeastern Manitoba has a population of 5,000. The main economy is agriculture & construction. The municipality provides many services to the community including transportation, water, wastewater, recreation, parks, and community buildings.

MUNICIPALITY OF NEVERLAND ASSETS

- Roads, Culverts and Bridges
- Water Treatment Plant and Lift Stations
- Distribution Mains
- Sanitary Sewer Treatment Plant
- Collection Mains
- Parks and Playgrounds
- Trails and Paths

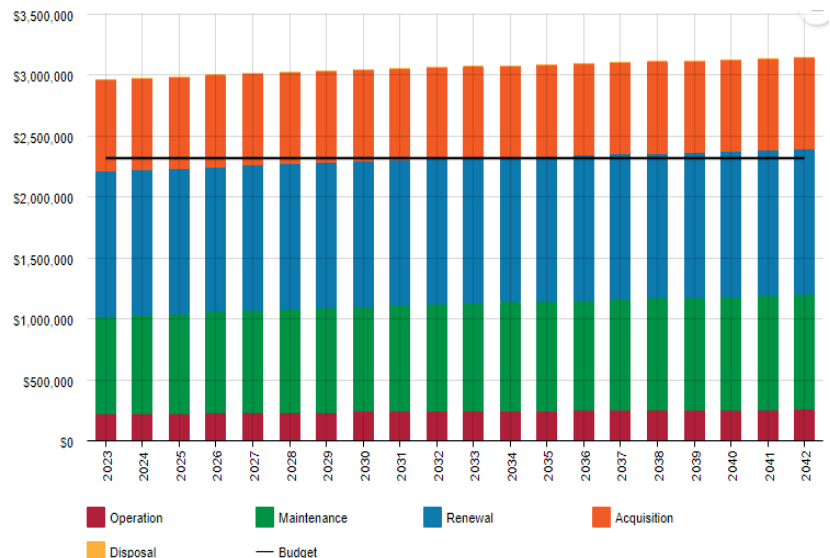

VALUATION SUMMARY

Replacement Cost
\$94,999,664

Depreciated Replacement Cost
\$25,445,204

Annual Asset Consumption
\$2,628,569

LIFECYCLE SUMMARY

STATE OF THE ASSETS

RISK MANAGEMENT

A risk management plan has been developed. The main risks are identified as:

- Insufficient income to renew existing assets
- Insufficient income to operate and maintain existing assets
- Lack of staff resources to complete all operations and maintenance work
- Increased likelihood and severity of flooding leading to culvert failure and road washouts
- Affordability of services for the community

LEVELS OF SERVICE

Recent Community Consultation was conducted:
Community values for infrastructure are growth and ability to attract & retain people to the area
High level of satisfaction due to recent investment in recreation development
LOS for operations and renewals has been declining

Interpret Asset Management Information

What is the general message in the report? Do you anticipate LOS to improve, decline, or stay the same?

Do you have any concerns with the confidence of information presented? Why?

What additional questions might you ask?

What elected officials should be asking:

- Do we know what the community ‘wants’ or expects from the service? What are people willing to pay for it?
- What are the upcoming costs and when? Are they affordable?
- Do we have the capacity? Time, Knowledge, & Resources
- What are the risks associated with the service provided? Are we comfortable accepting the risks?
- What climate change risks are there?
- Does this align with organizational Strategy & Goals?
- What won't get done if we support this?
-
-
-

Module 3: AM in the Real World

Learning Outcomes

1. Understand integrated planning and the role of the asset management system (policy, strategy and plans)
2. Understand how maturity assessment supports priority setting and roadmap development.
3. Consider the next step and resources required for your organization to advance their AM maturity
4. Aware of resources from FCM, AMM and other sources for implementing AM and documenting AM maturity

Asset Management Policy Template

Policy Adopted (dd/mm/yyyy)

Purpose: This Policy articulates the _____ (Community's name) commitment to effective asset management. The purpose of this Policy is to:
Deliver infrastructure services in a way that meets established levels of service;
Provide direction to help our community make decisions and prioritize core infrastructure needs;
Provide direction for the consistent application of asset management by Council and staff; and;
Reflect the organizations' strategic goals with respect to managing infrastructure.
Asset management enables the protection of community-owned assets that deliver core community services, including the water system, sewer system, roads and drainage, recreation, buildings, vehicles, and heavy mobile equipment (adjust as necessary).

ASSET MANAGEMENT POLICY STATEMENTS

Asset management is an organization-wide approach for managing infrastructure assets to enable the provision of community services. The tangible assets of the _____ (Community Name) are managed in accordance with the following principles and the policy statements that support them:

- A) Levels of Service** The _____ has established and strives to deliver levels of service that:
-Comply with all legislated requirements;
-Protect and uphold public safety, community well-being and the environment; and
-Reliably meet the informed expectations of stakeholders and the public.
- B) Informed Decision Making** Assets management decisions are based on sufficient, reliable and current inventory information. A consistent approach has been adopted for decision making, including data management, risk analysis, evaluating trade-offs, and record keeping. Decision that guide capital planning are made with a holistic view of systems needs across all asset categories, integrated with existing policies, and balanced according to community priorities. Opportunities for regional collaboration are identified and leveraged.
- C) Minimum Sustainable Cost** The _____ strives to uphold service levels at the minimum sustainable cost by minimizing expenditures on capital and operational costs, without deferring or under funding maintenance or renewal. A proactive approach has been taken, enabled through long-term financial planning that considers the full lifecycle costs of assets.
- D) Continuous Improvement** The Asset Management Policy and Plans are developed, implemented, evaluated and renewed on an ongoing cycle. Adequate resources are provided for implementation and training to enable the management of municipal assets according to current best practices.

Asset Management Policy Template con't

CONTEXT AND INTEGRATION

The context and integration of asset management throughout the organization is formalized through references and linkages between corporate documents. Where possible and appropriate, Council and staff will consider this Policy and integrate it in the development or updating of corporate documents.

KEY RESPONSIBILITIES FOR MANAGING THE ASSET MANAGEMENT POLICY

The performance of asset management is organization specific, reflective of knowledge, technologies and available tools, and will evolve over time. Council retains the sole authority to approve, update, amend, or rescind this Policy. Council has the authority to delegate implementation responsibilities to staff, while providing the resources necessary to support staff in performing delegated responsibilities.

A full list of responsibilities for implementing the Asset Management Policy is outlined below:

Area of Responsibility	Body Responsible
Ongoing review of policies, updating where needed	Council
Exercise stewardship of assets	Council
Establish a budget for asset management	Council, staff delegate
Monitor and review infrastructure standards at established intervals	Council, staff delegate
Report to citizens on status of the community's assets and assets management program	Council, staff delegate
Manages infrastructure-related risks	Council, staff delegate
Document and regularly re-evaluate levels of service	Council, staff delegate
Develop and maintain guidelines and practices	Staff delegate
Develop and maintain infrastructure strategies and service plans	Staff delegate
Develop and maintain asset inventories	Staff delegate
Assess infrastructure condition and service levels	Staff delegate
Establish and monitor infrastructure replacement levels through the use of full lifecycle costing principles	Staff delegate
Develop and maintain financial plans for the appropriate level of maintenance, rehabilitation, extension and decommission of assets	Staff delegate

AM Policy Activity Questions

- Do you agree with the "Purpose" statements? Anything to add or remove?
- What services does your organization provide? What are the division of Asset Classes that you will report on?
- Does your organization agree with the "Policy Statements"? Anything to add or remove?
- Is the "Context and Integration" appropriate? Does the Policy link to Council's Strategic Longer-Term Plans and Long Term Financial Plan?
- What would appropriate timelines be for the Area of Responsibilities?
- Is your organization in a position to review and/or follow this Asset Management Policy?

Terms of Reference for Asset Management Steering Committee Template

Purpose: To monitor progress on our Municipality’s Asset Management Roadmap/Workplan, which includes but is not limited to:

- Promoting awareness of the Town’s commitment to asset management.
- Promoting awareness of the workplan activities among departmental staff.
- Recommending (or assigning) responsibilities and timelines for Workplan activities.
- Making recommendations on allocation of resources (eg. staff and budget) to implement the workplan
- Monitoring and reporting progress on activities and timelines
- Recommending amendments to the Workplan or additional activities to support integration to good asset management practices for the municipality.
-
-

Committee Composition: The Committee Chair shall be (CAO or designate?). Other Committee members will include *(ensure a cross-functional team – where applicable include a key individual from finance, public works, engineering, etc.)*

Meetings: The committee will meet (frequency – e.g. biweekly or monthly - it is *suggested that times are set in advance on a regular schedule, e.g. first Wednesday of each month at 9 a.m.*)

Authority and Reporting: Written minutes will be prepared at each meeting and circulated to

_____ (all staff?) which will document progress to date on each activity in the Workplan.

The Committee receives its authority from _____ *(this should be the CAO/Town*

Manager) and will report to _____ *(whom? Frequency? This should*

be the CAO if CAO is not a committee member. The statement may be omitted if the CAO is on the

committee. The CAO may also wish to report to Council on progress annually. Including this in the Terms of

Reference is optional.)

Terms of Reference for AM Steering Committee Activity Questions

- Do you agree with the "Purpose" statements? Anything to add or remove?
- Who would be the Committee's Chair? Who will be included in your organizations cross-function team?
- Would be an appropriate timeline for meeting? How or what would a meeting look like?
- Who, what, and when would the committee report to?
- Is your organization in a position to review and/or follow this Terms of Reference for a Steering Committee?
